

ÅRNES AND AULI 14. SEPTEMBER 2024

That day we were going to Årnes to change a birthday present. We drove the highway to [Vormsund](#). That is a small village where E16 crosses [Vorma](#), a river that flow from [Mjøsa](#) to [Glomma](#).

A section of [Norgeskartet](#). Vormsund and Årnes are shown here.

To get to Årnes, we drove over the [Årnes Bridge](#). It was opened in 1963. Here we see both bridges before the old bridge was demolished.

Just over the bridge is Bautaparken. We see the bridge in the background.

This is a memorial after the terrorist attack on [Utøya](#) in October 2022.

This is a monument to remember nine Nesbuers who fell during the Second World War.

Special tree stump in the park.

We parked at where Elvekongen is moored.

This is the poster that tells about the trips that Elvekongen makes.

It runs river cruises on Glomma and Vorma on Sundays in June, July and August. It can also be chartered

Elvekongen docks.

Elvekongen to the left.

M/S Elvekongen was brought from [Lofoten](#). The boat has been in scheduled and charter traffic on Glomma and Vorma since 1993.

It has room for 45 passengers. [Visitnorway](#)

There is a marina here that is run by [Årnes båtforening](#) (Årnes boating association).

Nice area near the boats.

In Årnes we went to [Tilbords](#) that is situated in [Årnes Amfi](#), the largest shopping center in Årnes. They didn't have the items that we wanted to have instead, so there was no exchange.

Årnes Amfi

Here we have driven on to the [Auli mill](#).
Here we see the dam.

A waterfall below the dam.

This we approaches the mill.

The mill in backlight.

The mill is today a museum.

It was built in 1909 and was in use until 1985. It has been restored and is in operational condition. Although the mill was constantly renewed, the original part of the mill was preserved. The museum uses the old mill to demonstrate the old way of making flour.

In addition to the mill itself, the horse stable and the miller's residence are also part of the museum.

The description is taken from [Wikipedia](#)

The miller's residence and the horse stable.

On the way home, there were activities with harvesting grain.

The route was like this.
